"With regard to customer care, it is my ongoing objective to maintain reliable and successful partnerships."

Innovative spirit with traditional roots.

Located in Rosenau in Upper Austria, RoHol brings you cutting-edge processing of high-grade timber, all the way from tree trunk to topquality furniture.

Producing an architecturally-sophisticated, individually-customized design is just as important to us as finding solutions for innovative visions. We offer, not only the highest-quality of products, but also, an

unparalleled diversity. Furthermore, we strive continuously to develop and to offer new and remarkable luxury veneer surfaces. In this sense, we see ourselves as a perpetual supplier of ideas for ambitious quality veneer solutions.

**Innovation. Design & Diversity.
Individuality. Quality. Made by Austria.**

Preserving values for generations.

From the heart of the national park to the homes of our customers our company has been successfully operating as a reliable family-run business for almost 35 years. RoHol stands for top quality, individuality, customization and appealing designs. **Made by Austria.**

Luxury veneers.

Over 100 wood species available in over 20 different surface, grading and structure options.

Luxury veneered boards.

Everything from MDF to fireproof boards, from blockboards to plywood and special constructions.

Manufactured products.

Working hand-in-hand with our clients to develop and implement individual requirements e.g. combining our natural material, wood, with different metals, synthetics or insulating materials.

Sauna & Spa.

We provide sophisticated designs with innovative technical solutions using SaunaPly and SPress - naturally with formaldehyde-free glue.

WoW - „Wood on walls“.

WoW! is our new, innovative and customizable design system for interior walls. The planks of raw natural wood are resource-friendly, easy to handle and the top-quality processing produces a surface which is warm and appealing and integrates perfectly into timeless interior designs.

Our clients and projects.

We have a long history of collaborating with our business partners and clients and have developed innumerable projects together. Here is a small excerpt from the myriad of international projects that we have undertaken in recent years.
