RoHol[®]
The Austrian Wood Composer

Fleece-It

- Veneers pressed on fleece for immediate use
- Possible in over 100 types of wood
- Standard-Format: 2800 x 1250 mm (other formats on request)

Veneers pressed on fleece

The new product line from RoHol that represents a selection of the finest most popular veneers pressed on fleece for immediate use. Fleece-It distinguishes itself by its ease of use. This allows every fabricator to individually veneer pieces of furniture, and to do it with ease as the splicing of individual veneer strips is no longer necessary.

Backing

The fleece-back lamination provides an optimum balance of flexibility and stability.

It can be easily glued to a variety of substrates, pressed on and so manufactured with the desired surface finish. The flexibility of Fleece-It also allows curved and round materials to be finished with a refined yet naturally beautiful wood surface.

Types of wood

Oak knotty, Oak Pure, Oak grey Pure, Oak Crack, Oak Broncé+ Pure, Oak knotty Rough, Oak Reclaimed and Larix.

Other types of wood on request.
